

Durable Medical Equipment Ltd. has been providing quality medical products to the healthcare industry for over 10 years and now through the DME Direct website aims to provide a simple way for the public to purchase these same quality products.

We have split the products in to different types of ailments to assist you in finding products specific to your needs. We have then listed products under different areas in which you may require assistance. A number of the products also have PDF Information Sheets that you can view to get more detailed information and specifications.

We hope to provide you enough information to decide on the correct product for your needs but we are always happy to assist.

If you are buying for a loved one we can even gift wrap for you - just choose this option when selecting shipping in your shopping cart.

MOM INSPIRED. HOSPITAL TRUSTED.

For all your breast pump and breast feeding needs please visit our Sister site www.ameda.co.n
